ARG-WL8-SND	wireless sounder

The wireless sounder is a fully intelligent device which is compatible with all Streletz Translator and Expander Modules. When configured onto a wireless system sounders are fully addressable and benefit from an extensive range of intelligent control, test and monitoring functionality. In case of alarm translator and expander modules sent message from a control panel to sounders.

Communication between the detector and the translator / expander modules is wireless, via the Streletz bi-directional protocol. Sounder provides notification in case of a fire.

Features and benefits

- Bi-directional wireless communication
- Fully intelligent
- Sound synchronization with other sounders
- 10 years of battery life
- Self-optimizing wireless frequency and amplitude algorithms
- 5 years product warranty

Technical specifications

Communication range with the translator or expander (open space)	1200 m
Operating frequency	868 MHz
Modulation type	FSK
Operating frequency channels	6
Sound pressure level	98 dB
Battery life:	
Primary battery (type CR123A)	8-10 years
Secondary battery (type CR123A)	6-12 months
Dimensions (Including adaptor wall base)	110 mm x 64 mm
Weight	200 g
IP rating	IP43
Max tolerated humidity (no condensing)	95% RH
Operating temperature range	From –30 °C to +55 °C

Warranty

All devices are supplied with the benefit of a limited 5 years warranty (the warranty period does not apply to batteries). This warranty is invalidated by mechanical or electrical damage caused in the field by incorrect handling or usage. Product must be returned via your authorized supplier for repair or replacement together with full information on any problem identified.
