

Declaration of WEEE Compliance

The Waste Electrical and Electronic Equipment **Directive (WEEE Directive)** is the European Community **Directive 2012/19/EU** on waste electrical and electronic equipment (**WEEE**) which, together with the RoHS **Directive 2011/65/EU**, became European Law in February 2003.

All products manufactured by Argus Spectrum International that are subject to the WEEE Directive are compliant with the WEEE marking requirements as indicated and in accordance with EN50419.

The WEEE symbol requires that the product must not be disposed of with normal household waste. Such marked waste equipment must be disposed of by arranging to return to a designated collection point for the recycling of waste electrical and electronic equipment.

A handwritten signature in blue ink, enclosed in a blue oval, which appears to read "Sergey Levtchouk".
